

Pixel conditions for legacy reprocessing

Tamas Almos VAMI¹ for the Pixel Group

¹ Wigner RCP, Budapest

AlCaDB meeting

Legacy reprocessing

Conditions to be updated:

- *Generic Errors*
- *Templates*
- *Lorentz Angle*

Conditions might be updated:

- *Bad channel list*

LA/GenErr/Templates

One final update in the period that falls midway between the early summer and later summer updates

The statistics were quite low in that period

LA changes linearly with time

Timeline: 2 weeks after the end of data taking

Bad channel list

Depends on detector status

Timeline: 2 days after the detection of the problem
